

Saving energy doesn't have to be complicated, even in the summer. Try these simple ideas for reducing your summertime electric bills:

- Use ENERGY STAR[®] certified LED or CFL bulbs.
- Turn off lights, or add motion sensors.
- Turn off fans when you are not in the room. Fans cool people, not rooms.
- Set your thermostat to 78°F when you are home, and higher when you are away.
- Replace your air conditioner filter monthly.
- Recycle the old refrigerator in your basement or garage.
- Keep your refrigerator door closed.

A huge Thank You goes out to all those who made the Fireworks the great show that it was this year. From the promotion to the fund raising and right up to setting them off. Your dedication and hard work is very much appreciated.

The Lake Park Board would like to thank Harold Funk for his labor in repairing the bricks at the bath house at the pool. Your expertise and willingness to volunteer for this project is both recognized and appreciated. We would also like to thank Greg & Dee Baloun for the monetary donation made in memory of Bud & Eileen Petersen.

Lake Park is a great community, working together makes us stronger.

SAFETY REMINDERS

Bicycles: We urge residents to please be on the lookout for children on bicycles. We ask parents to remind your children of safe bicycling rules. For safety reasons we recommend that you avoid riding down Market St. (main) if possible.

Golf Carts: Parents/adults be sure to discuss safety procedures and rules with those driving golf carts. The state law is actually 16 years old and only the number of riders as there is seats. Think safety first.
