TRAIL NEWS

The Dickinson County Trails Board has made plans to address the standing water on the Silver Lake Trail adjacent to Beachcomber Drive. This maintenance will occur this spring and will allow for a much safer walk or bike ride. In addition, the faded trail signs will be replaced from Beachcomber Drive to the east entrance of Country Club Drive. These improvements are just a small part of the trail's big picture. Plans to connect Lake Park with the Lakes Area are continuing with completion of the goal to be in 2021. Much money and effort has been directed to this project and we welcome the quality of life, economic and small town atmosphere opportunities the connecting trail will offer.

Spring Maintenance

As the weather warms up, it's a good time to check your home for damage after winter.

1. Check your drainage slope and make sure the ground slopes away from your home's foundation—so rain water doesn't flow into your basement.
2. Inspect your roof. When it's safe to climb onto the roof, look for damp spots or cracks in the shingles that may need to be repaired.
3. Have your central air conditioner professionally serviced.
4. Clean and sharpen garden tools, and get your mower blades sharpened.
5. Recaulk around your doors and windows, and repair the glazing around exterior windows.

The Concordia Lutheran Church will be having a Brats Night April 4th at 5:00pm at the Community Ctr. Bingo, with prizes and a silent auction will follow.

With spring comes melting and lots of water. Per city code no person shall or be allowed to connect a roof downspout, sump pump, foundation drain, or other source of surface run-off to a building or building drain that is connected to the public sanitary sewer. Check your sump pump to see where it drains.
